

**No: MC03 – Mells Cover Slabs**  
**Sizes not exceeding DN/LN 1250**

(for size and date of manufacture see markings on product/s)

**Marshalls CPM, Mells Road, Mells, Frome,  
Somerset, BA11 3PD**

**EN1917:2002**  
DoP Ref: MD02

**Reinforced concrete cover slab** for use in a manhole or inspection chamber.

**Watertightness:** No leakage of joint at 50 kPa (0.5 bar) internally.

**Mechanical resistance:**

- LN1000xWN675 cover/reducing slab 18.5 kN, other units;-
- Reinforced units 120 kN proof load
- Unreinforced units 300 kN ultimate load

**Opening size:**

- DN900 – 600sq or 675sq central
- DN1050 – 600sq or 675sq eccentric, or 750sq central
- DN1200 – 750x600 or 600sq or 675sq eccentric, or 1200x675 central
- LN1200 x WN750 – 600sq eccentric
- LN1000 x WN675 – 600x450 reducing slab

**Durability:** Adequate for normal serviceability conditions.
